# On the Subject of Simon Speaks

— Miten minun pitäisi tietää, mitä tämä tarkoittaa?
— Nem beszélek finnül!
— Hvad?

- The module has 9 different shapes of speech bubbles in 9 different colors and with words in different languages. The below table shows what the words mean.
- In the first stage, note the position of the speech bubble that flashes. Move forward (in reading order, wrapping around) a number of spaces according to the first character of the serial number (where A = 1, ..., Z = 26) and press the bubble landed on.
- In each subsequent stage, an additional bubble flashes. Press the same bubbles as in the previous stages plus a new bubble obtained similarly as before, but with the subsequent characters of the serial number. Button inputs reset upon a sequence reset. The properties to use in each stage are, wrapping around in each case:
  - **Stage 1:** Position (reading order)
  - **Stage 2:** Shape of the bubble (going <u>right</u> in the below table)
  - **Stage 3:** Language the word is in (going <u>right</u> in the below table)
  - **Stage 4:** Observe the meaning of the flashing word, but press the bubble whose color is the new word's meaning (going <u>down</u> in the below table)
  - **Stage 5:** Observe the color of the flashing bubble, but press the bubble where the word's meaning is the new color (going <u>down</u> in the below table)

English	Danish	Dutch	Esperanto	Finnish	French	German	Hungarian	Italian
black	sort	zwart	nigra	musta	noir	schwarz	fekete	nero
blue	blå	blauw	blua	sininen	bleu	blau	kék	blu
