

On the Subject of Alcoholic Rampage

Everyone is Dead.

You are Demoman! The mercenaries are trying to figure out who killed Heavy, but you decide to go on a killing rampage in your drunken state. The only problem is you need to be drunk enough in order to pull the trigger.

BAC: 0.05 ○

DRINK KILL

Your current BAC will be on display. Use the table below to determine the minimum BAC you need to kill the displayed mercenary. If the minimum BAC is greater than 0.25, it is just 0.25. Drink to increase your BAC as needed and then kill once you are drunk enough. Killing 3 mercenaries will be enough to satisfy you.

Be careful not to excessively drink or else you will pass out.
