

On the Subject of Cruel Keypads

Do you know Korean?

- This module displays Korean letters, a colored bar, and a stage counter. There are 3 stages. Striking will reset the module to stage 1.
- To disarm the module, press the symbols in the correct order. For each stage, use the Venn diagram below to find out which table to use.
- Apply the special rule and input the symbols in the correct order.

	This is stage 1 or 3
	Any of these symbols are present: ㅇ ㅈ ㅊ ㅌ ㅍ
	If the color of the strip contains a letter* in common with the serial number.
	The strip is red, blue or green

* The possible colors are: Red, Blue, Green, Yellow, Magenta, and White.

Table A

Order	⌘ ⌥ L C ⑆ ⑇ □ ⌘ ⌥ 人 从 O 天 天 T ㄣ E Ⅱ _
Special rule	Switch the first press with the last and the second with the third.

Table B

Order	O 天 天 T ㄣ E Ⅱ _ ⌥ ⑇ □ ⌘ ⌘ 人 从 ⌥ L C ⑆
Special rule	If it's stage 2 or 3 then switch the first press with the fourth press.

Table C

Order	⑇ □ ⌘ ⌥ ⌥ C 天 天 T ㄣ E Ⅱ ⌘ 人 从 O _ L ⑆
Special rule	If there is a ps/2 port on the bomb and any lit indicator then reverse the order. Otherwise switch the first press with the second.

Table D

Order	⌥ _ ⌥ Ⅱ L E C ㄣ ⑆ T ⑇ 天 □ 天 ⌘ O ⌘ 从 人
Special rule	If this or any of the previous stages contained a T letter then reverse the order.

Table E

Order	C ⑆ ⑇ □ ⌘ ⌘ _ T ㄣ ⌥ ⌥ L 人 从 天 Ⅱ 天 O E
Special rule	If the strip in any of the previous stages were yellow or blue then input in the reverse order.

Table F

Order	ㄣ ⑆ C 人 Ⅱ E □ L ⌘ 天 ⌥ _ 天 T ⌘ ⑇ ⌥ O
Special rule	If the serial number contains a letter or number in common with any of the ports on the bomb then swap the third press with the fourth. Otherwise swap the first and the second.
