

On the Subject of DetoNATO

The word on the screen is: Alpha Lima Foxtrot Alpha.

- The module has four lettered buttons and a display.
- To disarm the module, complete all 6 stages by pressing the correct button.
- Look at the word on the display and find a string of letters corresponding to that exact word in the table N-470.

On each stage, press a button according to the following instructions:

- Stage 1: Press the letter that appears first in the corresponding string.
- Stage 2: Press the letter that appears last in the corresponding string.
- Stage 3: Press the letter that appears second in the corresponding string.
- Stage 4: Press the letter that appears third in the corresponding string.
- Stage 5: Press the letter that appears closest to the first letter in the serial number in the corresponding string (or either, if there's a tie).
- Stage 6: Press the letter that appears closest to the first letter of the displayed word in the corresponding string (or either, if there's a tie).
