# On the Subject of Flip The Coin

Call it! Quickly, before the bomb does.

- On this module, a coin, a screen with a digit and a submit button can be found.
- To disarm this module, you need to submit the correct side of the coin.
- You need to flip the coin at least once. Failing to flip once results in a strike.
- Ask the defuser what value the coin has and take that to the Table.

Coins (Head side):		
50 Cents	1 Euro	2 Euro
Heads when:		
• The digit is higher than the last digit of the Serial Number	• The digit is higher than the amount of batteries	• The digit is higher than the amount of lit indicators, minus the unlit ones.
Else always tails.
