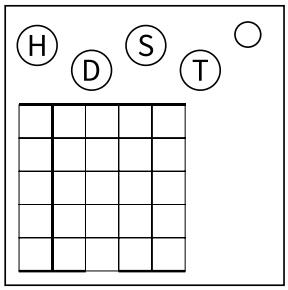
On the Subject of Housecleaning



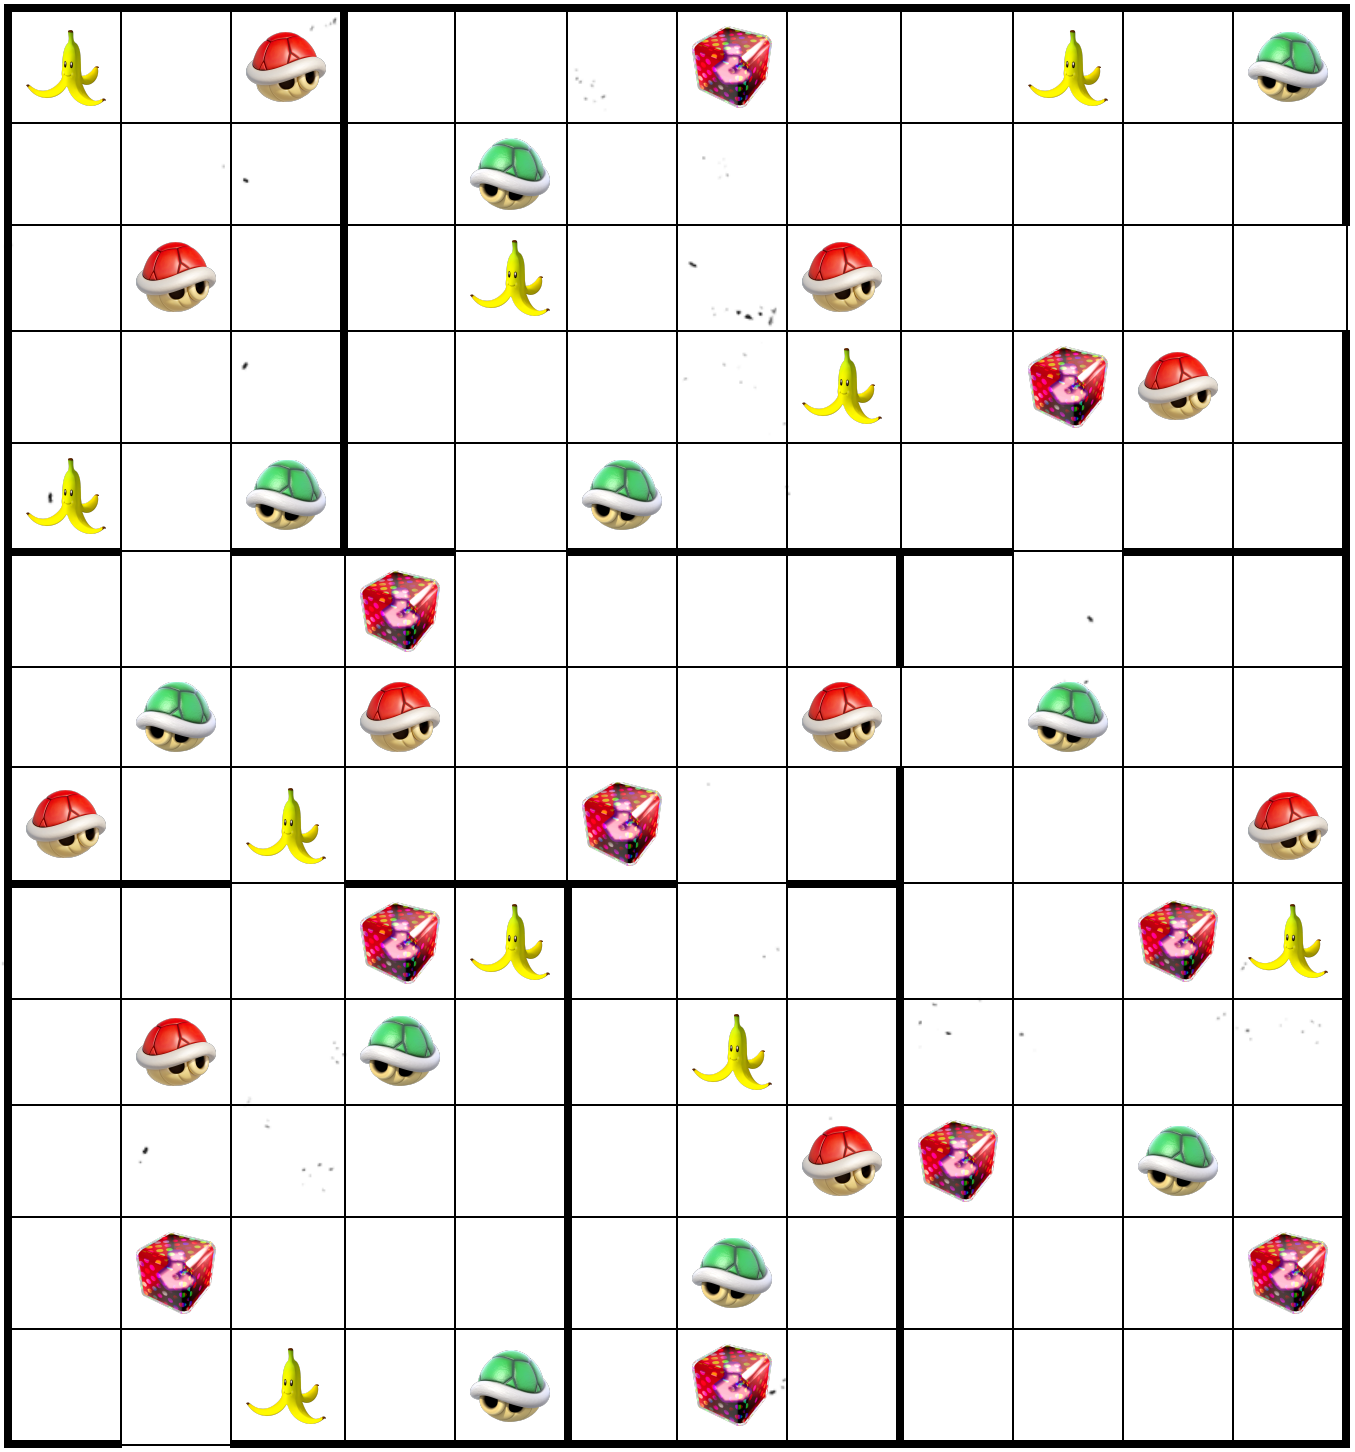
Who left this banana peel on the ground?!

On the module is a 5×5 section of a house. Locate this section on the layout below and clean the spaces with various products that you have at your disposal.

Trash will be invisible to the defuser's eyes.

(Select the product before you select a square!)

Cleaning Appliances	What it Can Clean
Doxi Kleen (D)	Red Shells
Tiffer Sweeper (T)	Bananas
Simonly Steamer (S)	Green Shells
Shamrocks (H)	Fake Item Boxes

Once the section of the house is clean, the module will solve.


If an incorrect item is used for a space, the module will detect it and issue a strike.
