

On the Subject of Quadrecta

If there's supposed to be a pattern here, I don't see it.

- You must press each button and release it at the proper time.
- The buttons may be pressed in any order, and will illuminate the LED in the center while held.
- While holding a button, use the first table to find which **Related Word** is currently also present on the module.
- Use the second table to determine when to release the button, based on the **Related Word** and the color of the LED.

Related Word

Use the table below to find which **Related Word** is present on another button.

Held Word	LED Color		
	RED	BLUE	GREEN
Okay	What or Now	Stop or Wait	When or Where
Wait	Now or When	Where or What	Stop or Okay
What	When or Stop	Okay or Now	Where or Wait
Now	Stop or Where	Wait or When	Okay or What
When	Where or Okay	What or Stop	Wait or Now
Stop	Okay or Wait	Now or Where	What or When
