

On the Subject of Seven Wires

You thought wires were easy?

This module has seven wires and a two-digit number on top.

To disarm it, cut the correct wire for the first rule which applies. (Possible colors are red, yellow, black, and blue.)

IMPORTANT: If the wire for a rule is already cut, the rule is skipped.

Rules

1. If there is a lit FRK and a lit CLR, cut the second wire.
Otherwise, go to rule 3.
2. If the number is between 00-99, cut the first wire.
3. If there is a solved Forget Everything or Forget Me Not on the bomb, cut the sixth wire.
4. If the serial number contains only vowels and numbers, cut the wire whose position is of the last digit of the serial %8. (0 = 1)
5. If the number appears on The Swan's reset code, cut the fourth wire.
6. If the number is 00, cut the sixth wire.
7. If all the modules on the bomb are made by Timwi, cut the 47th wire (or the fourth or seventh).
8. If the amount of solved modules is at least 2 and a multiple of 6, cut the first wire.
9. If there is a Laundry unicorn, cut any wire.
10. If there are more than 5 batteries on the bomb, cut the fifth wire.
11. If there are less than 0 batteries on the bomb, cut the third wire.
12. If all the wires are yellow and/or blue, cut the fifth wire.
13. If a previous rule was true (except from rule 2), cut the first wire.
14. If the number is divisible by 20, cut the seventh wire.
15. If the fifth wire is black and there are eight wires, cut the fifth wire.
16. If there is exactly one red wire and 1 battery on the module, cut the second wire.
17. If the number is divisible by 0, cut the seventh wire.
18. If the serial number contains a Y or a 0, cut the third wire.

19. If there is a lit IND or NLL indicator, cut the fifth wire.

Otherwise, go to rule 21.

20. If there are seven wires, cut any wire.

21. If there is a HDMI port and at least 2 red wires, cut the sixth wire.

22. If the number is divisible by 7, cut the seventh wire.

23. If there is a purple wire, cut the purple wire.

24. If there is a two factor code on the bomb with the number 5 in any position, cut the first wire.

25. If there are no modded modules on the bomb, cut the second wire.

26. If you pirated this module, cut the first wire.

27. If the last digit of the serial number is even, cut the third wire.

28. Otherwise, cut the fourth wire.
