On the Subject of Subways

Why can't you find your own way...

You are given a map, the name of a commuter, and the day the commuter is traveling. You must help them find their way by providing the route they need to take and the time they need to take it.

- 1. Using the table below associated with the correct city, find out what time and route the commuter is taking. Routes and times are in the following format: Route | Time
- 2. Use the second table to find out the stops on the route. When selected, stops are marked: green = stop 1, yellow = stop 2, red = stop 3. Click a stop again to deselect it.

Note: If batteries are used to tell time, 0 = 12am, 5 = 5am, 14 = 2pm, etc. If the number of batteries exceeds 24, subtract 24 and use that new number.
