

# On The Subject of The Button

## Procedure

A listed color is the question "Is the button [color]?"

A quoted word is the question "Does the button say [word]?"

A label refers to a lit indicator light.

1. blue & "Abort" . . . . ., then HOLD
2.  $\geq 2$  batteries & "Detonate" . . ., then PRESS
3. white & label CAR . . . . ., then HOLD
4.  $\geq 3$  batteries & label FRK . . ., then PRESS
5. red & "Hold" . . . . ., then PRESS
6. otherwise . . . . ., then HOLD

## Releasing a held button

If you start holding the button down, a colored strip will light up on the right side of the module. Based on its color you must release the button at a specific point in time, according to the countdown timer.

The numbers correspond to a digit which must occur on the timer in any position, to let go immediately and disarm the module.

Yellow strip: . . . 5

Blue strip: . . . 4

Otherwise: . . . 1
