

On the Subject of The Maroon Button

Hold on, isn't this The Red Button? Why are there flags?

The screen cycles through five different flags. One of the flags, A, is from a different continent from the rest. Sort the four other flags based on their latitudes in the table below and in which direction the screen is cycling. If the screen is cycling from left to right, order them from north to south. If the screen is cycling from right to left, order them from south to north. Press the button when the flags are highlighted in this order. Press A last, no matter the latitude. However, if the last digit of the serial number is even, press A first.

Flag	Country	Continent	Latitude
	Algeria	Africa	28.0339° N
	Senegal	Africa	14.4974° N
	The Gambia	Africa	13.4432° N
	Angola	Africa	11.2027° S
	Japan	Asia	36.2048° N
	South Korea	Asia	35.9078° N
	China	Asia	35.8617° N
	India	Asia	20.5937° N

Flag	Country	Continent	Latitude
	Guatemala	Central America	15.7835° N
	Honduras	Central America	15.2000° N
	Nicaragua	Central America	12.8654° N
	Panama	Central America	8.5380° N
	United Kingdom	Europe	55.3781° N
	Germany	Europe	51.1657° N
	Czech Republic	Europe	49.8175° N
	France	Europe	46.2276° N
	Colombia	South America	4.5709° N
	Ecuador	South America	1.8312° S
	Brazil	South America	14.2350° S
	Uruguay	South America	35.5228° S
